

VITAFOODS FAIR 2016

From May the 10th till the 12th, Vitae attended the Vitafoods Europe fair in Geneva. Vitafoods Europe enjoyed another record breaking year in 2016. They welcomed a total of 17.666 visitors through the doors of Palexpo. This year's event was Vitafoods Europe's 20th anniversary. It was a truly international affair with visitors from 115 different countries. The event proved to be a huge success and we were delighted to be able to do business with new and existing contacts from the nutraceutical sector. The global nutraceutical sector is vibrant and thriving and Vitafoods Europe is the number one meeting place for the industry. Delivering opportunities for people to develop their network of contacts and do business. With this year's show now behind us, work has already started on planning the next edition and striving to continually improve our presence offering innovative products, relevant to the industry. We look forward to meeting you at the next [Vitafoods Europe fair in Palexpo Geneva from 9-11 May 2017.](#)
